

Once Jouful

AFTER CLASS

STORY *Once Joyful*

This cocktail is more than just a drink it's a time machine in a glass. Designed to capture the essence of a school reunion, it brings back the laughter, the little secrets, and the unspoken. The scent of creamy vanilla blended with a soft milky note greets you first, like the comforting familiarity of a place you once called home. The first sip bursts with a refreshing tangy kick – bright and playful, like the energy of youth – followed by a gentle sweetness that settles in, evoking the warmth of old friendships. A light fizz dances on your tongue, adding a lively spark to the experience, just like the excitement of meeting familiar faces after years apart.

Reunion isn't just about meeting up it all comes rushing back. It's that spark when you realize no matter how much we've changed, some things between us never will.
